## Securing Nonprofits with CoolVu

### How 2025 FEMA NSGP Funding Supports Physical Security Enhancements

---

#### Introduction

CoolVu's advanced security films reinforce existing glass to help deter, delay, or prevent intrusions—all without full window replacement. This makes them a high-impact, grant-compliant solution for facilities with extensive glass entry points or large window walls.

---

#### What Is the FEMA Nonprofit Security Grant Program?

The NSGP helps at-risk nonprofits bolster physical security by funding critical upgrades like surveillance, access control, and protective window film systems.

- **FY 2025 Total Funding:** \$274.5 million
  - **Who Qualifies:** 501(c)(3) nonprofits facing credible threats
  - **Maximum Award:** Up to \$150,000 per facility
- 

#### What Can the NSGP Fund?

Eligible improvements include:

- CoolVu Security Window Film
- Protective retrofit glazing (e.g., DefenseLite® or RiotLite® systems)
- Access control
- Blast mitigation
- Security lighting

- Fencing
  - CCTV systems
  - Cybersecurity upgrades
  - Emergency planning and training
- 

### **How CoolVu Supports NSGP Grant Applicants**

CoolVu partners with nonprofit organizations to protect high-risk facilities. We assist with:

- Cost estimates
  - Glazing threat assessments
  - Recommending grant-eligible retrofit film solutions
- 

### **Who Should Apply?**

Nonprofits that:

- Hold 501(c)(3) status
  - Serve as houses of worship, educational or cultural centers
  - Can document a credible threat or prior incident
  - Are located in UASI or non-UASI areas
- 

### **How to Apply for NSGP Funding**

1. Confirm 501(c)(3) status
2. Contact your State Administrative Agency (SAA)
3. Review FEMA's NOFO at Grants.gov
4. Conduct a Vulnerability Assessment
5. Develop a detailed Investment Justification (IJ)
6. Gather cost estimates from qualified vendors like CoolVu
7. Submit your application through your SAA

---

### **Best Practices for a Strong Application**

- Be specific about threats and risks
- Include technical documentation, timelines, and cost quotes
- Collaborate with law enforcement and security consultants
- Tell your story—why your mission or community needs protection

---

### **Why CoolVu Security Films Matter**

Glass is often the first point of attack. CoolVu Security Films and retrofit systems like DefenseLite® provide compliant protection against forced-entry and blast threats—helping you meet NSGP guidelines while preserving aesthetics and avoiding costly replacements.

---

### **Take a Proactive Step Toward Safety**

FEMA's FY 2025 NSGP funding is a rare opportunity to enhance security at your facility. CoolVu can support your application, deliver expert guidance, and install professional-grade protective window films.
